

RAYMOND AYODELE OLUTOLA

Nottinghamshire, United Kingdom | | 07467 464170 | olutolaraymond@gmail.com | [LinkedIn](#) | Portfolio

Versatile professional with extensive experience in data analysis, warehouse operations, logistics, and supply chain management. Expert in SQL, Excel, Tableau, and Power BI, developing automated dashboards, predictive models, and ETL workflows to drive actionable business insights and optimize decision-making. Proven track record in improving operational efficiency, reducing errors, and streamlining processes in fast-paced warehouse and distribution environments. Adept at cross-functional collaboration, process optimization, and stakeholder communication, applying analytical and operational expertise to enhance performance, compliance, and productivity across diverse business functions.

TECHNICAL SKILLS

- **Programming & Query Languages:** SQL, Excel
- **Data Visualization & BI Tools:** Power BI, Tableau, Excel
- **Database Management:** Microsoft SQL Server, MySQL, PostgreSQL
- **Cloud & Collaboration Tools:** Microsoft Windows Server, Google Suite, Microsoft Office Suite, Slack, Zoom, Team Viewer

CORE COMPETENCIES

- | | | |
|-------------------------|----------------------------------|---------------------------------------|
| • Data Analysis | • Dashboard Creation | • Data Governance |
| • Data Visualisation | • A/B Testing & Experimentation | • Data Queries & Interpretation |
| • Data Modelling | • Statistical Computing Method | • Performance Metrics |
| • Business Intelligence | • Time Series Analysis | • Storytelling |
| • Predictive Modeling | • ETL (Extract, Transform, Load) | • Problem-Solving & Critical Thinking |

PROFESSIONAL EXPERIENCE

Data Analyst

Amdari Inc. UK

November 2025 - Present

- Developed and maintained interactive dashboards in Tableau and Power BI, enabling stakeholders to track key business metrics in real time, reducing manual reporting efforts by 40% and enhancing data-driven decision-making.
- Conducted root cause analysis on data discrepancies using SQL and Excel, identifying and resolving 25% of inconsistencies, thereby improving data integrity and ensuring accuracy in business intelligence reports.
- Optimized SQL query performance, reducing data retrieval time by 30%, which significantly enhanced operational efficiency and accelerated analytics workflows.
- Automated reporting processes by designing Power BI workflows, reducing manual data extraction time by 50% and ensuring consistency across weekly and monthly reports.
- Implemented advanced data-cleaning techniques using SQL and Excel, eliminating redundant data entries and enhancing the quality of datasets for analytics and forecasting.
- Developed predictive models using historical business trends, improving demand forecasting accuracy by 15%, enabling more precise resource allocation and inventory planning.
- Presented analytical findings to cross-functional teams and senior management, translating complex datasets into actionable business strategies that informed critical decision-making.

Warehouse Team Member / Goods Out

Wincanton – B&Q Distribution Centre

- Managed high-volume warehouse email communications between logistics, transport, and customer service teams, reducing internal response times by 45% and improving outbound coordination.
- Maintained 99.8–99.9% data accuracy across inventory updates, shipment records, delivery notes, and order entries, strengthening stock visibility and audit readiness.
- Resolved approximately 90% of supplier, carrier, and internal queries at first contact, minimizing operational bottlenecks and supporting faster order dispatch.
- Verified supplier documentation, product codes, quantities, and dispatch details, reducing order errors and shipment delays by 35%.
- Supported end-to-end goods-out operations, including order picking validation, pallet checks, and dispatch confirmation to ensure on-time, accurate deliveries.

Warehouse Operative

PAB Coventry Ltd

- Achieved consistent stock accuracy above 98% through regular cycle counts, receipting, and timely resolution of stock discrepancies.
- Supported uninterrupted production by ensuring 100% availability of materials at production line locations, minimizing downtime and meeting daily output targets.
- Processed goods-inwards deliveries accurately, including verification of quantities, documentation checks, and system updates to maintain inventory integrity.
- Supported outbound dispatch operations by preparing, checking, and staging orders in line with shipping schedules and customer requirements.
- Met and contributed to team KPIs for goods-inwards, picking, and dispatch, helping maintain strong on-time delivery performance.

Warehouse Operative**Staffline Recruitment – Fandale Foods**

- Maintained 100% compliance with food safety, hygiene, and cold-storage procedures, reducing risk of spoilage, contamination, and regulatory non-compliance.
- Achieved 95%+ picking accuracy in a fast-paced chilled food production environment, supporting order quality and customer satisfaction.
- Consistently met or exceeded daily picking, sorting, and packing targets, ensuring smooth workflow and on-time production schedules.
- Followed strict temperature-control, traceability, and labeling requirements to maintain product integrity across the supply chain.

Logistics Officer**Mate Energy Industries Ltd**

- Managed 100% of stock-taking and inventory reconciliation activities, improving inventory visibility and significantly reducing stock discrepancies.
- Coordinated transportation, scheduling, and movement of materials and equipment, ensuring on-time delivery to operational and project sites.
- Monitored inbound and outbound logistics activities, tracking deliveries and resolving issues to prevent delays and operational disruptions.
- Improved storage and handling efficiency by organizing packing, labeling, and crating processes, reducing handling errors, damage, and rework.

Purchasing & Supply Officer**Green World International**

- Negotiated supplier pricing and terms, achieving measurable cost savings on materials and services while maintaining quality standards.
- Maintained accurate inventory tracking and stock records, ensuring continuous material availability and minimizing stockouts that could disrupt operations.
- Reviewed, evaluated, and compared vendor bids to ensure 100% compliance with contractual, quality, and regulatory requirements.
- Built and maintained strong supplier relationships, facilitating timely deliveries and resolving procurement issues efficiently.

EDUCATION

BSc Economics - Ekiti State University, Nigeria

CERTIFICATION

Data Analytics - 10Alytics
